

INNOVATION FROM TRADITION

WE CREATE VALUES

Since our founding over 90 years ago, we have been passionate about two things:
LIGHT & METAL.

This knowledge, built up over four generations, enables us to offer you high quality products in three divisions. With FISCHER, you are choosing a strong partner for light & metal.

We live values & create values for you and your customers.

Technology changes our lives. There is no progress without innovation. We have the knowledge to succeed. We encourage unconventional thinking and new ideas.

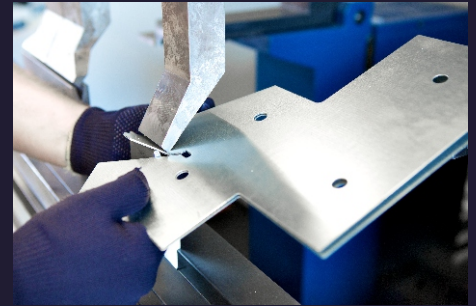

Optimistic, dynamic and responsible, we not only want to satisfy our customers, we want to inspire them - we create products with more value!

FISCHER LICHT & METALL is one of Europe's leading manufacturers of illuminated advertising and metal components. A creative team of more than 200 employees plans, develops and produces innovations in three business sectors. Our knowledge in these areas is our customers' competitive advantage.

ADVERTISING SYSTEMS

As one of the largest European manufacturers of illuminated advertising, we only supply competent specialist companies in the advertising industry. We manufacture high-quality advertising systems, from the smallest letter to a 50-metre-high advertising tower. FISCHER Licht & Metall works professionally in a total of 7 trades of the craft, largely automated with state-of-the-art machinery. So much interdisciplinary expertise is required to design and produce the perfect advertising installation.

Illuminated advertising from FISCHER creates attraction for your customers with illuminated letters and lettering, banners and pylons, advertising towers and large installations. The professional realisation of imaginative works by world-renowned lighting artists is also part of our spectrum.

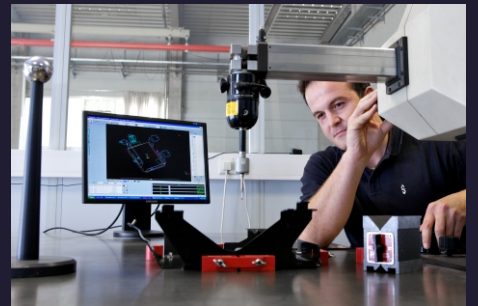

Of course, we have all the legally required manufacturer's qualifications for steel and aluminium construction.

METAL COMPONENTS

FISCHER LICHT & METALL manufactures high quality products using the infinitely versatile material of sheet metal. We offer our customers industrial manufacturing at a high-tech level with state-of-the-art machinery. We work closely with you right from the design stage and ensure an efficient process chain.

Our top specialists will work out the best solution for you for products in the field of CNC metal parts, pressed and punched elements, welded components and special plant construction. We serve global companies in the automotive, electrical, engineering, lighting industries and medical device manufacturers.

FISCHER has all the legally required manufacturer's qualifications for aluminium and steel. Of course, we are also certified according to DIN EN ISO 9001:2015 - we ensure the quality of your products.

LIGHTING SYSTEMS

For over 50 years, FISCHER has been manufacturing lighting systems for public spaces. They are permanent installations in railway stations, underground and suburban railway stations, congress and shopping centres and public squares. Aesthetically high-quality lighting solutions are created in creative dialogue with architects and planning offices. Measuring in free space with laser technology, design in 3D, in-house production on state-of-the-art machines as well as professional, clean assembly are all part of our services. FISCHER is certified according to DIN EN ISO 9001:2015 and holds all legally required manufacturer qualifications for aluminium and steel. Safety in public spaces is our top priority.
